OBJECTIVE

Passionate Electronics and Communication Engineer with a strong coding foundation, eager to contribute to innovative projects and organizational success.

EDUCATION

B.E. Electronics and Communication Engineering, R.M.K. Engineering College Oct 2022 – Present
CGPA: 7.53*
HSC, R.M.K. Matriculation Hr. Sec. School May 2022
Percentage: 86.8%
SSLC, SBOA School and Junior College Mar 2020
Percentage: 64.4%

TECHNICAL SKILLS

Programming & Scripting: Java, Python, SQL, HTML, CSS, JavaScript

Databases: MySQL

Tools & Platforms: VSCode, Git, Google Colab, MySQL Workbench, Arduino IDE, ThingSpeak, Cisco Packet Tracer, LaTeX

AREA OF INTEREST

Computer Networks

INTERNSHIP EXPERIENCE

Intern, Nirloba IT Pvt Ltd, Chennai June 2024 – July 2024

- Trained in Embedded Systems and IoT with Arduino/ESP32 simulation using Wokwi.
- Sent sensor data to ThingSpeak cloud for real-time monitoring.

PROJECTS

TCP Socket Two-Way Chat Application

- Developed a client-server chat system using TCP sockets over local Wi-Fi.
- Implemented socket creation, connection handling, and message exchange.
- **Tools Used:** Python, TCP Sockets, Local Wi-Fi/LAN

IoT-based Smart Room Simulator using ThingSpeak

- Simulated temperature, motion, and brightness data with Python; sent to ThingSpeak cloud.
- Designed a dashboard with gauges for AC, Fan, and Light status, refreshing every 15s.
- **Tools Used:** Python, ThingSpeak Cloud, REST API

Employee Management System using Python and MySQL

- Built a console-based system to add, view, update, and delete employee records with database integration.
- Used Python and SQL queries to manage employee data and ensure real-time record updates.
- **Tools Used:** Python, MySQL, MySQL Connector, MySQL Workbench

CERTIFICATIONS

- Joy of Computing Using Python - NPTEL (2023)
- Networking Basics - Cisco Networking Academy(Digital Badge) (2025)
- HTML Web Development Crash Course - Infosys Springboard (2023)
- Intro to Cloud Computing - IBM (2025)
- SQL Basics - HackerRank (2025)
